Global Vocational Education Resources Gathering

Global vocational education elites gather, led by the German Pavilion, with internationally renowned guests to share education concepts and practices.

Authoritative Guests Lead the Wisdom

Invite leaders of domestic and foreign education authorities, enterprise representatives, and experts from institutions to seek common development and create a brilliant future for VET.

Diversified Activities

Organize international seminars, skill competitions, teacher training, school-enterprise talks, non-heritage activities, etc. to build an efficient platform for VET exchange.

In-depth links with industry frontiers

We cooperate with German enterprises, international organizations, Chinese head enterprises, and service providers of industry-education integration to promote education and deepen the integration of industry and education.

Cooperation Achievements

The results of VET internationalization cooperation and industry-education integration will be displayed, and the launching and signing activities will be held to witness the milestone moments together.

Crossing provincial boundaries to seek common development

Organize exchanges among education authorities, applied colleges and vocational colleges within and outside the province to jointly promote cross-regional exchanges and cooperation.

PARTICIPANT

- Education Authorities
- Application-oriented Universities
- Vocational Schools
- International Education Institutions
- Industry Associations
- Industrial Enterprises
- Training Service Providers
- Equipment Suppliers
